In accordance with Title 27, California Code of Regulations § 21660.3, please be advised that the County of San Diego Department of Environmental Health Solid Waste Local Enforcement Agency (LEA) received and has accepted an application for a modification of the Solid Waste Facility Permit for EDCO Station. The LEA is certified by the California Department of Resource Recycling and Recovery (CalRecycle) to enforce state laws and regulations at solid waste facilities within the County of San Diego.

Description of Proposed Changes: The operator has submitted an application to correct the solid waste facility permit business street address from 8152 Commercial Street La Mesa, CA 91941 to 8184 Commercial Street La Mesa, CA 91941. Amend the Report of Facility Information/ Transfer Processing Report to clarify the usable square footage of the tipping floor area, and correct grammatical and typographical errors to reflect current operating conditions. The project

does not include an increase in the permitted daily tonnage received, traffic volume, or changes in the days or hours of operation.

LEA Findings per §21665(d): The County of San Diego Solid Waste Local Enforcement Agency finds the proposed change qualifies as a modified solid waste facilities permit. The proposed change to the solid waste facility does not require that the permit include further restrictions, prohibitions, mitigations, terms, conditions or other measures to adequately protect public health, or public safety, to ensure compliance with State Minimum Standards or to protect the environment in accordance with the California Solid Waste Management Act.

Where can a copy of the permit application can be reviewed?

A copy of the permit application is available for review by appointment at the Department of Environmental Health office located at 5500 Overland Drive, Suite 110, San Diego.
